The Perfect Blend of Performance

90A HIGH PERFORMANCE POLYURETHANE

maxIMIZED PERFORMANCE

Stellana[®]

max 90[™]

Moves Material Faster
Carries Heavier Loads
Provides Good Traction

Stellana max90 blends the best qualities a polyurethane tire can have. Tires on today's lifting equipment are pushed to the extreme and are expected to move materials faster, carry heavier loads, and provide greater traction. Max90 is specifically engineered to safely handle high loads at high speeds while delivering good braking, comfort, and traction compared to a 95 durometer compound tire.
