

## **Hexpol TPE GmbH Environmental Policy**

Hexpol TPE GmbH will integrate health, safety and environmental factors into our day-to-day and strategic business decisions.

The company will comply with all relevant legislation and will commit to continual improvement activities in accordance with the international standard ISO 14001.

Hexpol TPE GmbH will involve management, employees and stakeholders and will take account of the views of the public (where appropriate), in the identification of potential environmental impacts of our processes.

Hexpol TPE GmbH will manage its resources to save energy, reduce waste, promote recycling and prevent pollution to the environment.

Hexpol TPE GmbH recognizes that we have an impact on the environment and that we should act to reduce this impact by conducting our business in a responsible, considerate and thoughtful manner.

Therefore we are committed

- to reducing our negative impact on the environment
- to reducing the waste generated from our production activities
- to recycling unavoidable waste wherever possible
- to exploring opportunities to use materials that are recycled or recyclable
- to continually reduce our carbon emissions
- to encouraging our employees to be aware of their responsibilities in their use of energy and impact to the environment
- to meet all necessary legislative requirements and regulations

**Dr. Peter Ryzko**

Managing Director

Hexpol TPE GmbH
